github.com/ZeeshanMir-SE | linkedin.com/in/zeeshan-mir

EDUCATION

BSc Software Engineering

UET Lahore, New Campus 2024
– 2028

ID: 2024-SE-13

TECHNICAL SKILLS

Languages JavaScript, Python

Front-End React, HTML5, CSS3,
Tailwind CSS

Back-End Node.js, Express,
MongoDB

Tools Git, Vite

Other Data Entry, Web
Development

STRENGTHS

Full-stack (MERN) development
Fast, self-directed learner

PROFILE

Software Engineering student who builds full-stack web applications with the MERN stack and brings them to life with motion and 3D interaction. Comfortable across the stack, most at home on the front end — turning interfaces from merely functional into something that feels alive. Also takes on freelance web development, data entry, and Python scripting work.

PROJECTS

3D Software Engineer Portfolio

- ▶ A motion-driven, 3D-accented personal portfolio built in phases with React, Tailwind, react-three-fiber, and framer-motion.

React, Vite, Tailwind, Three.js, Framer Motion

ShopEase — E-commerce Store

- ▶ A full-stack online store with product catalog, cart, checkout, and an admin dashboard to manage inventory and orders in real time.

React, Node.js, Express, MongoDB

TaskFlow — Team Task Manager

- ▶ A Trello-style task board with drag-and-drop columns, team member assignment, and due-date reminders, built for small dev teams.

React, Express, MongoDB,

DevBlog — Personal Blogging Platform

- ▶ A CMS-style blog where writers can draft, edit, and publish posts with markdown support, tags, and a public reader-facing site.

React, Node.js, MongoDB

NestFinder — Property Listings

- ▶ A real-estate listing app with search filters, map-based browsing, and a saved-favorites feature backed by a REST API.

React, FastAPI, MongoDB

EXPERIENCE

Freelance Web Developer & Data Entry

2025 – Present

- ▶ Delivered small web development and data-entry projects for clients using JavaScript and Python.
